BEFORE I CAME TO COLLEGE I WISH I HAD KNOWN...

.... that I could change so much and barely realize it.
 that I can love a lot of people in a lot of different ways.
 that if I wear polyester everyone will ask why I am so dressed up.
 that I should have practiced doing laundry before leaving home.
 that college kids throw airplanes too.
 that it is okay to be undecided about my major because the Career Development Center is there to help me decide.
 that every clock on campus shows a different time.
 that if you were smart in high school, so what?
 that I could sleep until 9:00 and still make my 9:20 class.
 that my best friend is the worst roommate.
 that the less I have in common with my Freshman roommate, the more I learn from him/her.
 that I should join a couple of clubs, but no more than three.
 that I can know everything and fail a test.
 that I can know nothing and ace a test.
 that class attendance is important, even if not mandatory.
 that my first semester grades and effort would impact my entire academic career.
 that I would never watch the news and would be totally out of touch with the world happenings.
 that the pre-Orientation rafting trip would help me get my feet wet regarding meeting new friends.
 that home is a great place to visit, but I wouldn't want to live there.
 that the more money your parents give you, the less you have every time you check your account!!
 that parties get old, and sometimes you just want to kick back and watch a movie.
 that most of my education would be obtained outside of class.
 that free food served until 10 is gone at 9:50.
 that Western New York would begin a life-long love for Buffalo Wings.

.... that I would want to go home every weekend my Freshmen year.
 that I would laugh at all the Freshmen going home every weekend my Senior year.
 that Sunday is a figment of the world's imagination.
 that Psychology is really Biology, that Biology is really Chemistry, that Chemistry is really Physics and that Physics is really Math.
 that my parents would become so much smarter in the last few years.
 that it's possible to be alone even when you are surrounded by friends.
 that friends are what makes this place worthwhile!
 that December break comes quickly and the Spring semester flies by.
 to not be dismayed at good-byes.
 a farewell is necessary before we can meet again, and meeting again, after moments or a lifetime, is certain for those who are friends.
